

ONCAM C-08 Outdoor Plus

Key Features

Multi-Mode

Simultaneously stream up to four different views from a choice of five (inc. dewarped views)¹.

Industry Leading Frame Rates

Capture every movement in sharp detail with market leading 60 fps at full 4.7MP resolution or maintain your chosen frame rate up to 30 fps on primary stream with 3 other streams running. Alternatively, experience best in class performance of 30 fps with TrueDetail HDR.

Streamlite Compression Technology

Lower bandwidth and storage by an average of 50% or more on both H.264 and H.265, and over 90% when there is no motion and Dynamic FPS is enabled. Integrated VMS / NVR partners have access to StreamLite+, and can achieve an additional 20% thanks to ColorMap Compression².

Truedetail HDR Technology

Reveal the lost details in both dark and bright areas of the same scene. Correctly expose every detail with dual concurrent exposures.

Advanced Light Management Technology

Dynamically manage the available light to optimize image quality to produce clearer, full-color, lower noise videos. Maintain the sharpness of static or moving objects in challenging low and mixed light conditions.

Analytics

Motion Region Detector, Tampering, Loitering Object Detector, Line Crossing,/Counting, Region Object Detector, Object Tracking Only, and Region Object Occupancy.
