

2MP HDCVI Security System

Four (4) 2MP HDCVI IR Eyeball Cameras with One (1) 1080p Penta-brid HDCVI DVR with Analytics+

Wiz Sense

WizSense Series devices combine Dahua's powerful Analytics+ with an intuitive and easy to use interface. WizSense devices offer Smart Motion Detection and Perimeter Protection functions that focus on human and vehicular images and ignore irrelevant images to capture important video while reducing false alarms. WizSense Series devices provide powerful general surveillance for small to medium size businesses at a sensible price.

System Overview

The Dahua HDCVI Security System provides all the components to quickly install, configure, and employ a complete video surveillance solution. The HDCVI cameras offer the clarity of high definition video, and the HDCVI DVR offers built-in motion detection algorithms, alarm triggers, and customized recording modes. The cameras and the HDCVI DVR supports multiple video outputs making the kit compatible with many existing systems. The kit features Dahua's HDCVI technology that leverages an existing coaxial infrastructure, saving time and costs from running networking and power cables.

Functions

Long Distance Transmission

HDCVI technology guarantees real-time transmission over long distances without loss of video quality. HDCVI devices provide the same resolution as most IP network camera systems using existing RG-59, RG-6, or CAT 6 UTP cabling.

Simplicity

HDCVI technology seamlessly integrates traditional analog surveillance systems with upgraded, high-quality HD video, making it the best choice to protect security investments. The plug and play approach enables full HD video surveillance without the hassles of configuring a network.

Smart Motion Detection+

Smart Motion Detection, a component of Dahua's Analytics+ technology, improves alarm accuracy and decreases the number of false alarms. The advanced SMD algorithm analyzes a scene for human or vehicle motion, while filtering out other motion due to trees, leaves, animals, weather, and triggers an alarm when detected.

2MP HDCVI Cameras

- 2MP (1920 x 1080) at 30 fps Maximum Resolution
- 2.8 mm Fixed Lens
- Maximum IR Length 30 m (98 ft), Smart IR
- IP67 Environmental Protection

HDCVI DVR

- Embedded Processor
- Four (4) Channel Penta-brid Recorder
- 4 +2 IP Camera Channels, each channel up to 6 MP
- 1080p at 15 fps Recording Resolution on All HDCVI Channels
- Al Coding Technology for High-quality Human/Vehicle Video
- Automatically Detects HDCVI, AHD, TVI, and CVBS Inputs
- Perimeter Protection and Smart Motion Detection (SMD)
- Maximum 32 Mbps Incoming Bandwidth

AI Coding

The AI Coding function puts recording emphasis on human or vehicular objects in the video scene. This technology, based on constant bit rate (CBR), dynamically allocates increased bit rate to the target object while reducing the bit rate allocated to background objects. AI Coding reduces bit rate and storage requirements by up to 50% when compared to the H.265 video compression standard.

Smart H.265+

The HDCVI DVR uses Smart H.265+ video compression to reduce bit rate and storage requirements by up to 70% when compared to standard H.265 video compression. Smart H.265+ is the optimized implementation of the H.265 codec that uses a scene-adaptive encoding strategy, dynamic GOP, dynamic ROI, flexible multi-frame reference structure and intelligent noise reduction to deliver high-quality video without straining the network.

Multi-format Support

The camera and HDCVI DVR supports multiple video formats including, HDCVI, CVBS, AHD, and TVI. The camera can switch between these four formats via the OSD menu or the switch located on the video output cable making the camera compatible with not only HDCVI DVRs but also most existing HD/SD DVRs. The HDCVI DVR automatically recognizes the incoming signals of each attached camera without any setup, making installation easy and operation convenient.

Environmental

With a temperature range of -40° C to $+60^{\circ}$ C (-40° F to $+140^{\circ}$ F), the cameras are designed for extreme temperature environments. The cameras, subjected to rigorous dust and water immersion tests, are certified to the IP67 rating making them suitable for demanding outdoor applications.

The HDCVI DVR features an operating temperature of -10° C to +55° C (+14° F to +131° F).

Playback and Backup			
Playback 1/4	čk		

Playback Function	Play, Pause, Stop, Rewind, Fast Play, Slow Play, Next File, Previous File, Next Camera, Previous Camera, Full Screen, Repeat, Shuffle, Backup Selection, and Digital Zoom
Backup Mode	USB Device/Network
Storage	
Internal HDD	One (1) SATA Port, Up to 6 TB capacity per HDD (Ships with a pre-installed 2 TB HDD) $$
Auxiliary Interface	
USB	Two (2) USB 2.0 Ports
RS485	One (1) Port for PTZ Control
Electrical	
Power Supply	12 VDC, 1.5 A
Power Consumption	< 4 W, without HDD
Construction	
Dimensions	Mini 1U, 325.0 mm x 257.10 mm x 55.0 mm (12.80 in. x 10.12 in. x 2.17 in.)
Net Weight	1.20 kg (2.70 lb)
Gross Weight	1.90 kg (4.20 lb)
Installation	Desktop
Video Transmission Dist	cance
RG-59/U Coax	720p: 800 m (2624.67 ft) 1080p: 500 m (1640.42 ft) 4K/4MP: 500 m (1640.42 ft)
RG-6/U Coax	720p: 1200 m (3937.01 ft) 1080p: 800 m (2624.67 ft) 4K/4MP: 700 m (2296.59 ft)
CAT 6 UTP (Balun required)	720p: 450 m (1476.38 ft) 1080p: 300 m (984.25 ft) 4K/4MP: 300 m (984.25 ft)
Environmental	
Operating Conditions	-10°C to +55°C (+14°F to +131°F), 0% to 90% RH
Storage Conditions	-20°C to +70°C (-4°F to +158°F), 0% to 90% RH
Third-party Support	
Third-party Support	Dahua, Arecont Vision, AXIS, Bosch, Brickcom, Canon, CP Plus, Dynacolor, Honeywell, Panasonic, Pelco, Samsung, Sanyo, Sony, Videotec, Vivotek, and Others
Certifications	
Safety	FN 60950-1, IFC 60950-1

Safety	EN 60950-1, IEC 60950-1
Electromagnetic	FCC CFR 47 Part 15 Subpart B. EN 61000-3-2,
Compatibility (EMC)	EN 61000-3-3, EN 55032, EN 50130, EN 55024

^{1.} The DORI distance is a measure of the general proximity for a specific classification to help pinpoint the right camera for your needs. The DORI distance is calculated based on sensor specifications and lab test results according to EN 62676-4, the standard that defines the criteria for the Detect, Observe, Recognize and Identify classifications.

^{2.} Transmission distance results verified by real-scene testing in Dahua's test laboratory. Actual transmission distances may vary due to external influences, cable quality, and wiring structures.

^{3.} The recorder is capable of two (2) simultaneous Perimeter Protection channels, four(4) SMD channels, or one (1) Perimeter Protection channel and two (2) SMD channels. Perimeter Protection and SMD cannot be used on the same channel.

SMD on all HDCVI channels is disabled if an IP camera is enabled on channels 5 and 6.
 The M-N resolution refers to technology that allows a 1080p HDCVI DVR to accept a video signal from a 5 MP or a 4 MP camera by sampling every other pixel on a horizontal line from the camera. The resulting recording resolutions are: 5 M-N: 1296 x 1944; 4 M-N: 1280 x 1440.
