DISCTAGEV2 - MIFARE® DESFire® Sticker Credential

Product Description

The DISCTAGEV2 is a small PVC sticker credential containing a MIFARE® DESFire® EV2 (4K) RFID chip. It's the ideal solution for any high-security access control projects, as the AES128 encryption prevents credential cloning. DISCTAGEV2 integrates seamlessly into our user-friendly KRYPTO high-security system.

CDVI offers a variety of access control credentials with different technologies (125 kHz proximity or MIFARE®). You'll find the ideal credentials to meet the needs of your installation. You can also customize our CDVI cards and tags with your own company logo (minimum order of 1,000 units).

**Contact with wireless phone chargers may damage RFID credentials.*

Key Features

- MIFARE® DESFire® EV2 4K (13.56 MHz)
- Compatible with MIFARE® DESFire® and KRYPTO readers
- Available in packs of 25

 Certification

 DEEE

RoHS Certification

KRYPTO
HIGH SECURITY SOLUTION

Product Specifications

Material:	PVC
Technology:	MIFARE® DESFire® EV2
Frequency:	13.56 MHz
Security level:	High security
Weight:	0.3 oz, 1 g

1.2" dia. (30 mm dia.)
