## GALEOBT - Bluetooth Keypad with Remote Electronics

### Product description

The GALEOBT is a stylish and innovative keypad, combining good looks with a high level of ruggedness and vandal resistance.

Award winning, the GALEOBT bluetooth offers class-leading performance and convenient programming via Android and IOS applications.

GALEOBT is supplied with a remote electronic controller - this means the electronics are housed in the secure area and therefore reduces the possibility of gaining entry by "tampering" with the electronics within the keypad body.

### Key features

- Internal or external use
- Remote electronics for added security
- Up to 100 user codes
- Blue backlit keypad
- Bluetooth applications for Android and IOS
