

Card

Smart Credential

NOC-50L4

OS 4K Memory 13.56MHz 37bit Card

Smart Credential

A comprehensive, high-security smart credential designed for flexibility and performance. Featuring MIFARE DESFire® EV3 technology with EAL 5+ security certification, it delivers a reliable and secure solution for a wide range of access control needs.

Key Features

- High Frequency Solution for Increased Security, Privacy and Portability
- High Read Range
- Temperature Resilient
- Lifetime Warranty
- Leaf Compatibility

Specifications

Operating Frequency	13.56 MHz
Typical Maximum Read Range	Up to 3" (depending the reader used)
Dimensions	2.13" x 3.37" x 0.03"mm (54.0 x 85.6 x 0.8mm)
Construction	PVC + PET
Operating Temperature	-50° to 160° F (10° to 71°C)
Weight	0.20oz (5.5g)
Security Level	EAL 5+
Leaf Compatibility	Yes, LEAF Si Enabled Standard / Leaf Cc Enabled by Request
Slot Punch	Vertical or Horizontal
Color	White
Printable	Yes (white / white card) when used with direct imaging and thermal transfer printers Exclusion areas for printing may apply in some areas of the card plastic
Warranty	Lifetime
