Datasheet

STAINLESS STEEL KEYPAD/ PROFIL100EC

Product description

The PROFIL100EC is a narrow style, high quality, stainless steel keypad with soft blue backlighting. It is ideal for mounting onto door frames or areas where a mullion style keypad with ruggedness and aesthetics are important.

Its design and its high resistance to vandalism makes it suitable to secure residential, commercial and industrial sites.

The security level of the PROFIL100EC is increased due to the electronics being housed away from the keypad.

Remote electronics (included)

Key features

- Stand-Alone

- 4 to 5 digit code

- High resistance to vandalism

- Remote electronics (for added security)

- Up to 100 user codes

Product Information

Material: Stainless steel
Technology: Digicode®
Mounting: Surface mount
Relays: 2 form C outputs (8A/250 V),
timed (1 to 99 sec.) or latched
Diax® security screws
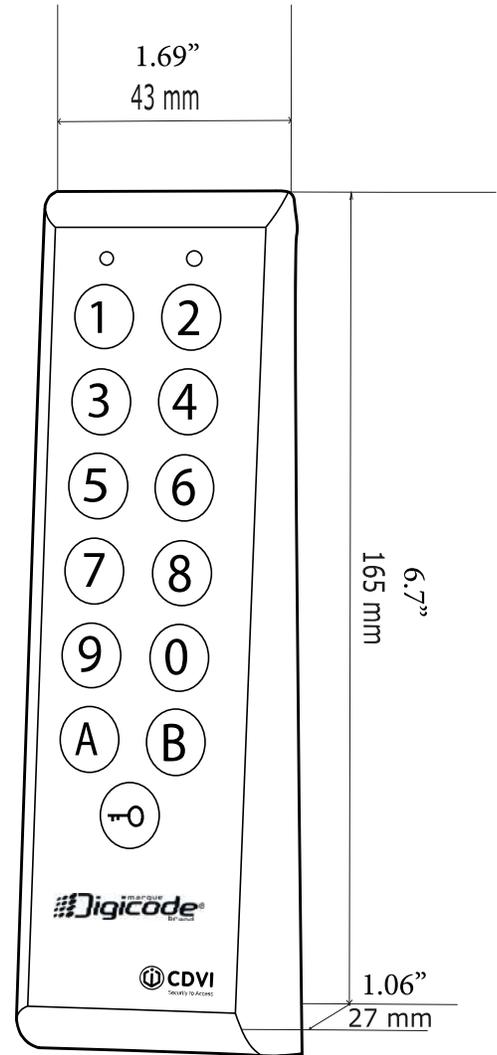

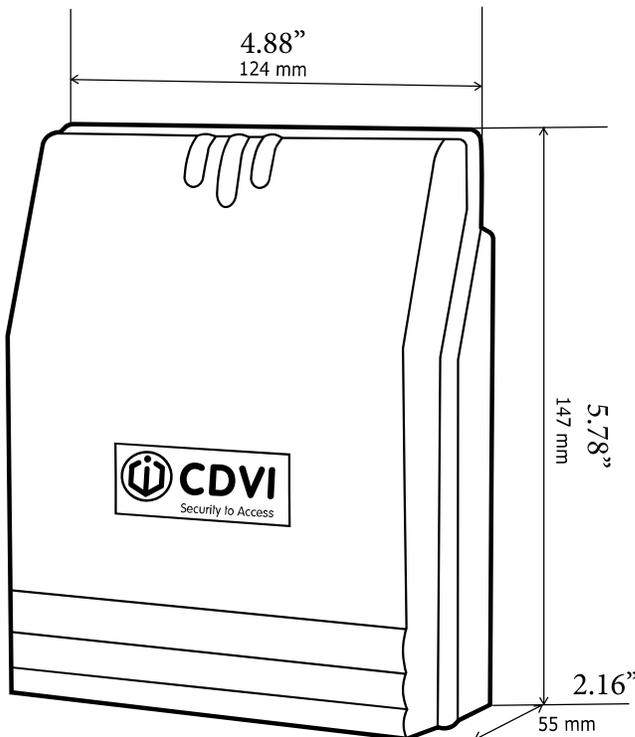

Input Specifications

1 Request to Exit

Output Specifications

Number of relays: 2

Electrical Specifications

Operating Voltage: 12V to 24 VAC / 12V to 48VDC
Max current: 140 mA
