

# Switch SKY-SW20G-001

Wisenet SKY Switch

The Wisenet SKY PoE switches are industry standard highly reliable PoE switches designed to seamlessly integrate with the Wisenet SKY VMS. Gigabit switches are great for display stations that require higher bandwidth, if network topology requires cascading multiple switches, for locations where multiple bridges are deployed, or for flexible mounting options.

<b>Total Number of Ports</b>	20
<b>PoE Ports</b>	16 PoE+
<b>Uplink Ports</b>	2 RJ-45 and 2 SFP
<b>Power Supply</b>	Built-in Power Supply
<b>Voltage Range</b>	AC100-240V
<b>PoE Specifications</b>	54 VDC 802.3af (max 15.4W), 802.3at (max 30W)
<b>Maximum Power Budget</b>	250W
<b>Speed</b>	10/100/1000 Mbps
<b>Dimension (L x W x H)</b>	440 x 200 x 44mm 17.3 x 7.9 x 1.7in
<b>Switching Capacity</b>	40 Gbps
<b>MAC Address</b>	8K MAC address table
<b>Temperature Range</b>	0-50° C (32-122°F)
<b>Storage Temperature</b>	-20-70° C (-4-158°F)
<b>Rack Mountable</b>	Rack or wall mounting (Brackets included)
